CAC Group, Boccia Equipment Donation Project Implementation report

Boccia equipment donated to 14 non-profit organizations/corporations
and training session held as part of popularization activity

CAC Holdings Corporation (Head office: Chuo-ku, Tokyo; President and CEO: Akihiko Sako) hereby announces that, through the Boccia Equipment Donation Project, for which a call for applications was made in October 2017, donations of Boccia tools have been made to 14 non-profit organizations or corporations that were either wanting to introduce Boccia as a recreation or sport, or that support disabled people.

As a Gold Partner of the Japan Boccia Association since 2016, the company is committed to the popularization and support of the sport of Boccia for people with disabilities. This project, part of the company's activity to popularize Boccia, aims to get more people to experience the enjoyment of playing Boccia. The company has donated Boccia equipment to those organizations that want to introduce Boccia but for whom the cost of the equipment would prove to be an obstacle.

The company donated Boccia tools (balls and match equipment) to all 14 organizations that applied. The organizations were wide-ranging and, in addition to local Boccia clubs, included sports associations for disabled people, nursing homes, and the Girl Scouts. Boccia equipment was sent to people of all ages and diverse settings. CAC group employees visited three of the organizations and handed out Boccia equipment, held a Boccia workshop, and enjoyed a game of Boccia together.

The CAC Holdings Group plans to continue the Boccia Equipment Donation Project so that Boccia can be experienced by as many people as possible.

CSR activities of the CAC Group :

As one means of expressing its gratitude for the ongoing support it receives from society and its stakeholders, CAC Holdings has been engaged in activities to promote and support Boccia, a sport for people with disabilities, jointly with CAC Corporation and CAC Croit Corporation, both of which are Group companies. It is also undertaking other activities, including the development of a game-watching environment using IT based on the capabilities of the CAC Group, which operates IT and healthcare services both in Japan and overseas.

About CAC Holdings :

CAC Holdings Corporation serves the CAC Group as its holding company, providing IT and health care services both at home and abroad. The CAC Group is fully committed to contributing to the development of a better society, primarily by providing IT services and human resources BPO that mainly address companies' management issues, and pension management systems and pension system research in the social security sector, and pharmaceutical development support services.
